Omschrijving:

There are homes that impress from the outside, and then there are homes that stop you the moment the front door opens. Set within a gated community in Goldra, elevated at 289m above the Algarve's Golden Triangle, this four-bedroom Andalusian-style villa delivers one of those moments: a sweeping, uninterrupted view that stretches from the rolling hills of the hinterland all the way to the glittering Atlantic. That view is present from the instant you step into the grand double-height entrance hall, and it stays with you at every turn throughout the home at morning light, at golden hour, and everything in between.

The ground floor is thoughtfully laid out and made for family life. The fully fitted open-plan kitchen flows naturally into a generous dining area with direct access outside, bringing effortless flow between indoor and outdoor living. A separate living room connects to a cosy television and snug room, creating distinct spaces to gather or retreat. Two bedrooms share a well-appointed family bathroom, a third bedroom benefits from its own en-suite, and a guest WC completes the ground floor with care. The first floor belongs entirely to the principal suite a proper sanctuary. A dedicated landing provides a calm and practical home office, while the main bedroom itself opens onto private balconies that frame those extraordinary views. A dressing room, a large bathroom with freestanding bath and separate shower, and an abundance of natural light throughout make this a space you will not want to leave.

Outside, the villa continues to deliver. Beautifully landscaped gardens with mature planting surround the

property, while a heated swimming pool sits at the centre of what is a genuinely excellent outdoor entertaining space. Covered terraces provide shade for long lunches, and a dedicated BBQ area ensures the alfresco lifestyle the Algarve promises is fully within reach. Throughout the villa, underfloor heating keeps things comfortable in cooler months, Mitsubishi multi-split air conditioning manages warmer days, and electric roller shutters add both convenience and security. A separate double garage completes the picture, providing secure parking and excellent additional storage within the private gated community.
For anyone looking to make the Algarve their permanent home, a property at this elevation and with views of this quality is a rare find. The Golden Triangle with Quinta do Lago, Vale do Lobo, and Vilamoura all within easy reach is one of Europe's most sought-after residential addresses, and Goldra offers the peace and privacy of the hills without sacrificing access to world-class golf, beaches, fine dining, and Faro International Airport. Whether this is your forever home or a sound investment in one of Portugal's most enduring luxury markets, this property makes a compelling case for both. We invite you to arrange a private viewing and experience those views for yourself.
*Features and fittings mentioned are subject to agreement and verification between the vendor and the buyer.
Energy rating: B

- Gated community in Goldra, elevated at 289m with panoramic sea and countryside views
