وصف:

Rustic land (agricultural) with about 1720 m2 that has a paved road front with about 20 meters. In 2009, a written feasibility request was made, to which the competent authority responded with a favorable opinion on construction in the parcel classified as "Urban Space of Edified Dispersion". You should take into account some aspects, such as construction techniques, number of floors in the building and the possibility of car parking inside the land.
