وصف:

The Santa Bárbara Panoramic Hotel will have four stars, 23 rooms and 7 apartments in duplex separate from the Hotel consisting of entrance, living area, kitchenette, double room and toilet

There is also a meeting centre, spa and a hydrodynamic swimming pool - water on the go - massage area and relaxation room. There will also be a panoramic restaurant, bar, reading patio and tennis court.

Completed in 1971, the hostel is considered one of the most relevant architectural projects of the 20th century Portuguese. Recently, the property is with rehabilitation project and expansion of the space.

Set in a hillside terrain, the building plays with the excellent panoramic position and solar orientation, presenting all the main facilities (rooms and guest rooms) facing south. The implantation on the slope of the slope results a three-storey plant.

Manuel Tainha designed the building as an element of landscape appreciation, of dialogue between man and nature. The way the building is shaped and fits in the topography and the concern with the use of materials in the region are elements that contribute to the valorization of a building.

Excellent investment opportunity!
