	وصف:

This is a pioneering and ecological project located in Lisbon. The project offers a mix of 7 apartments and 13 eco-chalets, including studios, one and two-bedroom apartments and one-bedroom duplex eco chalets. The project emphasizes green living for the 21st century, with a commitment to reducing resource consumption and using environmentally friendly, locally sourced building materials.

The project also includes an infinity pool and lounge area with great views, providing residents with a comfortable and relaxing living experience. It is more than a development project; is a statement on the importance of sustainable living in today's world.

With a privileged location, it connects the city to any point in Portugal and Spain, in a few hours, but also a short distance from Lisbon International Airport and access to main highways .

Today it is a district located at the top of one of the hills of Lisbon, 110 meters above sea level. This
