وصف:

This is a brand new block of 9 apartments in a compound. the apartment units are very spacious, two bedrooms each unit and each room is self contained(en-suite) the apartment block has 5 floors and with an elevator.

The rooms are tastefully decorated and well equipped with the necessary furniture , same with the kitchen which is well equipped with the necessary appliances.
To save on energy, we have limited the use of electricity to heat water and instead opted for solar heated water.

The property is under CCTV surveillance, 24/7 and security guards.
the property is located within a serene and quiet upscale neighborhood with close proximity to all social amenities, malls, international schools and medical facilities.

The property is installed with piped gas, hence no presence of cylinders in the units.

Some of the rooms on Wing A, have balconies thus offering a very beautiful skyview of kileleshwa/westlands and part of Kilimani.
