Beschreibung:

This single-family housing project is suited to the requirements of a modern family, which is looking for a space with very specific characteristics. Inserted in a rural environment, in a land that excels in its sun exposure and green landscape in a quiet and quiet area, follow a rustic regional matrix that

unequivocally embraces a new time, ensuring the comforts of the century. xxi, fully respecting the bucolic environment in which it is included.

The villas are of typology T3 and composed of 2 floors with values of 500,000 with swimming pool. Although there is a distinction between the isolated typology and the twinty typology, the general concepts are shared by all the houses; the relations with the outside were privileged, always maintaining large spans, some of them allowing access to the garden.

This villa with 2 floors consists of:

- Garden with swimming pool (with possibility of being heated);
- 3 bedrooms;
- Fully equipped kitchen;
- Living room with TV;

- Barbecue by the pool, overlooking the sea;
- Laundry equipped;
- Furnished sold house;
- Private parking not covered.
