ABOUT THE AREA

Los Árboles Tulum is a private, gated residential community of visionary individuals and families who embrace a modern ideal of living in harmony with nature. Located ten minutes outside the tourist destination of Tulum, Mexico, the off-the-grid residential development has an explicit ecological, educational, and social mission.

You'll feel right at home with a security and maintenance team that will always make sure everything is in order. Safety is kept at the gate and within the property grounds. There's no hassle. The only sounds you'll hear are those of nature. Because of its prime location, you won't be immersed in the city, but rather deep in nature. Being a lot owner means you are helping with the conservation of species. With ongoing projects and research, we make sure the Yucatán Peninsula jungle lives on.

Tulum is a town on the Caribbean coastline of Mexico's Yucatán Peninsula. It's known for its beaches and well-preserved ruins of an ancient Mayan port city. The main building is a large stone structure called El Castillo (castle), perched on a rocky cliff above the white sand beach and turquoise sea. Near the ruins is the Parque Nacional Tulum, a coastal area with mangroves and cenotes.
