Beschreibung:

Today, we are presenting these two fabulous plots of land, with a combined area of 4,560 m², which offer the possibility of building a detached villa. They are located in Albergaria-a-Velha, in the parish of Branca, and are characterised by their tranquillity and serenity, as well as their excellent location close to all essential services and amenities.

With a total area of 4,560 m², these plots offer countless possibilities for construction, providing a blank canvas on which you can bring your dreams to life.

A Casa Da Joana is a real estate company that was born in the city of Aveiro. It stands out for its rigorous and careful selection of the properties it promotes and presents to its clients. It sees itself as a relaxed concept, where finding the ideal home, and the most exciting one possible, are the watchwords.

The closeness and empathy it builds with its clients creates bonds and establishes a relationship of trust and credibility that can't be matched.

We are on the market to bring color and passion to the real estate market and to combat the traditional model of buying and selling property.

Our home is the most special place in our lives and, for this reason, choosing it is a process that should be advised with all the importance and care it deserves.
