Beschreibung:

We started the final phase of the project with the construction of fourteen semi-detached villas, designed to offer a distinctive style thanks to the new shade selected for the composite façade cladding. Each home, distributed over three floors, includes three bedrooms and three full bathrooms as standard, with the possibility of adapting the distribution to two bedrooms if you prefer more spaciousness in the rooms. The qualities are luxury and are designed to guarantee comfort and durability in one of the most emblematic areas of Dénia. From the private solarium you can contemplate the views of the Montgó natural park, enjoying a privileged environment that combines nature and proximity to the main services of the city.
