LOCATION

Ahimsa Tulum is located within the Great SELVAZAMA Project 300 meters from the famous Green School adjoins world class projects and it is the closest residential area to the beach. It s the best location in the history of Tulum.

ALDEA ZAMA

Thanks to the success generated by Aldea Zam SELVAZAMA was born hand in hand with the planned sustainable development of TULUM. Located in one of the most privileged areas of the Riviera Maya this new destination promises to stand out as a resting place with an organic and relaxed environment away from the hotel circuit and with an architectural design that blends in with the jungle.

The projects in Selvazama represent three areas that promote social integration of the community Tulum Center a space for cultural activities that has an amphitheater surrounded by tropical trees Art Park with a total area of 135000 m2 of pure jungle and Holistic Center a sanctuary to focus body mind and spirit.

GREEN SCHOOL

Inside SELVAZAMA one of the most important schools in the world arrives focused on values and education around the community. The purpose is to reflect the natural elements of the region that nurture the balance of this beautiful magical and unique place in the world. Green School is a project of educational entrepreneurs John and Cynthia Hardy who opened the first center of its kind in 2008 in Bali.

The headquarters will have a program that ranges from basic to upper secondary education based on learning related to sustainability with the aim of generating the next generation of environmental leaders regardless of the career or specialization they choose. Therefore SELVAZAMA does not only seek to impact tourism but also those who intend to be part of a community that over time will become an agent of change for the country's beaches and destinations.

In Ahimsa Tulum we believe that everyone should have the opportunity to find that connection with the cosmos. The celestial bodies are spelling your name answer the call and discover all that you are destined to experience in Tulum. **ACT WITH YOUR HEART THE UNIVERSE WILL TAKE CARE OF THE REST**

Energy flows like water creating channels that connect our own light with the Earth's and invite us to form bonds with it that is why we give so much importance to the place where we live because the Earth is more than just land it is a piece of the universe where you can form your own home.
