Beschreibung:

In one of the most privileged locations in Quinta da Beloura, this villa stands out not only for its architecture and comfort, but also for its proximity to one of the most prestigious international schools, TASIS Portugal, allowing a rare daily life, where it is possible to make the journey on foot, with all the comfort and tranquillity.

Some houses stand out for their details... and others by the way they make us feel.
This is clearly one of the two!

With a modern architecture and well-defined lines, this villa invites you to live to the fullest, between the natural light that invades each room and the perfect connection between interior and exterior.

Built in 2016 and carefully updated in 2022, it presents itself today as a sophisticated space, designed for comfort, conviviality and well-being.

Implanted in a plot of 976 m², with about 481 m² of total area, it is spread over three floors, where the fluidity of the spaces and the abundance of light are protagonists.

GROUND FLOOR

The entrance is through an imposing hall, with double height, where natural light creates a welcoming atmosphere from the first moment.

The social area is large and surrounded, with a living and dining room of about 58 m², marked by an elegant fireplace and direct connection to the outside.

The kitchen, equipped with Miele appliances, combines functionality and aesthetics, including a casual dining area overlooking the garden a perfect setting for everyday family life.

On this floor, we also find a bedroom with a full bathroom, ideal for guests or family support.

EXTERIOR

The outdoor space of this villa is truly an invitation to slow down and live with quality.

Surrounded by a well-kept and sheltered garden, where privacy is felt in a natural way, this is a setting where green merges with tranquility. Every detail has been designed to provide comfort and well-being throughout the year.

The swimming pool, elegant and perfectly integrated into the space, invites you to long days of sunshine and relaxed family moments. Around them, the solarium spaces allow you to enjoy the light with total serenity.

The outdoor dining area appears as a natural extension of the house ideal for receiving, sharing and creating memories, in a sophisticated but unpretentious environment.

And when the end of the day brings milder temperatures, the outdoor fireplace becomes the perfect meeting place. A space designed for long conversations, glasses of wine and that rare feeling of comfort that only a truly special home can offer.

More than a garden, this is a private haven, where every moment gains time, meaning and pleasure.

UPPER FLOOR

Here, the house gains a new dimension of tranquility.

A second, versatile room can take on different functions office, gym or a reading corner.

The three suites, all with dressing rooms, benefit from private terraces, creating intimate and bright spaces.

The master suite stands out for its generous area, comfort and connection to the outside.

LOWER FLOOR (-1)

This floor is distinguished by the intelligent way it separates the service area from the leisure area,

ensuring functionality without compromising comfort.

In the laundry area, we find the laundry room, a large suite and an additional space that is currently used as a bedroom, but which can also be converted into a storage area.

In the leisure area, the house reveals a truly special atmosphere. The cinema room, with acoustic treatment, provides an immersive and private experience. It is complemented by a spa area, with a Turkish bath, designed for moments of relaxation and well-being.

The social area of this floor is, however, its great highlight: a large, sophisticated and engaging space, where the games area is articulated with an elegant living area, supported by a bar and an impressive wine cellar. A perfect setting to receive, socialize and create memorable moments, in an environment that combines comfort, aesthetics and exclusivity.

This floor also has a garage with capacity for 2 to 3 vehicles, electric charging, as well as storage areas and technical areas, ensuring all the practical components of everyday life with the same quality that is felt in the other spaces.

COMFORT AND TECHNOLOGY

The house integrates modern solutions that elevate the living experience: interior elevator, efficient air conditioning system (air conditioning and heat pump with solar support), home automation for controlling curtains and other equipment, air renovation and purification system and high quality materials, including cork insulated flooring.
