Beschreibung:

Joint sale of two interconnected commercial fractions, designated by the letters A and B, located on the ground floor of a building located in Prior Velho, municipality of Loures.

These fractions are intended for commerce services, and are physically connected to each other, which allows an integrated use as a single large and versatile space, suitable for various commercial or business activities

The property has a joint gross area of approximately 135 m², spread over two units with areas of 65 m² and 70 m², respectively. Its internal organization includes service areas, several offices and sanitary facilities, offering a functional and adaptable configuration to the needs of different types of business. Inserted in a consolidated residential area, the space benefits from good road access, easy outdoor parking and proximity to public transport and support services, which contributes to adequate exposure to the public and potential to attract customers.

It is, therefore, an opportunity balanced between investment and own use, standing out for its location, interconnected configuration and potential for appreciation.
