Τοποθεσία

Χώρα:	Thailand
Διεύθυνση:	Koh Lanta Islands
Δημοσιεύθηκε:	12/08/2024
Περιγραφή:	

The land is almost square in shape, and occupies the top of a large hill. The location, local zoning and the slope of the hill will guarantee that this stunning sea view is always protected. The ocean views are simply beautiful and amongst some of the best on Koh Lanta. The views take in a number of sights and are across the Andaman Sea towards the Koh Bida and Koh Phi Phi Islands. On a clear day, you can also see Phuket and even Koh Racha. Every evening you will see one of Koh Lanta's famous sunsets. We would suggest that this plot is ideal for a private house(s), due to the proximity to nature, the views and quiet tranquillity. There are numerous design and build services available on Koh Lanta to assist with your dream of building a beautiful sea view property. Lanta Island Property would be pleased to introduce you to some of the best construction companies available. The land holds the Nor Sor 3 Gor title, and an asking price of 4M Thai Baht for the plot. The land is sold with a long term lease in place offering 3 x 30 years.
