Περιγραφή:	

With a great location in the centre of Torre vieja, close to all amenities and at the same time close to the beach and port, we can now present this very interesting project.

The project consists of 12 modern appartments, all built with high standards and very good qualities. You can choose between one- and two-bedroom flats, all of which have an open layout between the kitchen and living room and a bathroom. Only two flats have two bathrooms.

The flats come with pre-installation of air conditioning, aerothermal system for hot water, shower screens and underfloor heating in the bathroom, built-in wardrobe in the bedroom.

The building will have five floors and the top floor offers a sunny communal roof terrace with Jacuzzi for residents.
