Περιγραφή:

Unique bungalow right in the heart of Berlin. In the Hansaviertel, modern construction was presented by the most renowned architects of the time during the 1957 building exhibition. The bungalow for rent here was built by Eduard Ludwig, student of Ludwig Mies van der Rohe. Due to its well thought-out floor plan and the use of large glass fronts, it appears open, light and spacious on the inside. The atrium and garden appear to be part of the interior. Its open floor plan make it perfect for a couple or a small family. There is a spacious (master) bedroom, a large children's room and a smaller guest room. All other rooms flow generously into each other. The bungalow is centrally located and yet extremely green in the middle of the zoo, so you can immediately start jogging, cycling or walking. There are parking spaces in front of the house and it is also very well connected by public transport - the nearest S-Bahn stations are Bellevue and Tiergarten, the nearest U-Bahn station is Hansaplatz. At Hansaplatz is also the nearest supermarket and other stores for daily needs.
