Περιγραφή:	

Located close to Montefrio in the province of Granada we have this productive 76,000m2 plot of olives. With 202 olive trees you can get around 10,000 kilos per year of olives. There is no water or electric on the plot but 100 metres away you have a transformer which you can use to collect water from the nearby stream. There is a part of the land which is full of mountain mediterranean plants and trees. If you want an extra income then this is a great investment. Get in touch for more information.
