The house consists of a total of 6 apartments, of which 5 are two-bedroom with living room and one one-bedroom with living room.

On the ground floor is a laundry room, next to which is a staff room. Ideal as a purchase for investment and taking over a well-established rental business. On the roof are solar panels used for water heating.

There are even two swimming pools in the yard. One is intended for use only for the apartment on the ground floor, next to which it is located. The other is for everyone else to use.
