Περιγραφή:

Two connected homes are sold together, which offers multiple possibilities for both a large single-family home and dual-use investment.

One of the homes has been inhabited and is in good condition, while the other has the structure made, initially distributed in three rooms, and pending completion according to the needs of the buyer.

Each one has its own cadastral reference, which allows independent procedures in case you want to divide or sell separately in the future.

Ideal for families looking for additional space, custom renovation projects or investors who value flexibility of use.
