Περιγραφή:

A building plot with complete project documentation for the construction of a modern family house with a swimming pool is offered for sale, located in a quiet and attractive area of Cerje Samoborsko, on the slopes of the Samobor Hills. The location offers a perfect balance of nature and privacy, while providing quick and easy access to the center of Samobor, which is only a few minutes' drive away. The total land area is 820 m<sup>2</sup>, with an approximate frontage of 34 meters along the road, allowing for a highly functional architectural solution. The project envisages a detached family house spread over three levels, with a strong emphasis on contemporary design, high living comfort, and energy efficiency. Layout description: The basement level (63 m<sup>2</sup>) is designed to include a garage for two vehicles, a laundry room, and an internal staircase connecting all floors. The ground floor (72 m<sup>2</sup>) consists of an entrance hall, bathroom, wellness area with sauna, kitchen connected to the dining and living area, a home office, and access to spacious terraces. The garden area includes a planned 32 m<sup>2</sup> swimming pool and a covered gazebo with barbecue facilities measuring 15 m<sup>2</sup>, ideal for outdoor living. The attic level, with a total area of 67.06 m<sup>2</sup>, comprises three bedrooms, one of which includes a private bathroom and walk-in wardrobe, an additional bathroom, and a hallway. The project features modern architectural design, high-end interior finishes, and a thoughtfully landscaped garden, with a focus on functionality and year-round comfort. An application for the issuance of a building permit has already been submitted. The asking price of €135,000 refers to the land with complete project documentation. There is also the option of project realization on a "turnkey" basis, with the final price subject to agreement. Additional information available upon request....
