Περιγραφή:

Blato, Korčula, center, renovated stone house approximately 140m2.

A completely renovated traditional stone house, the reconstruction of which was completed about six months ago.

All systems are new: electrical installations, plumbing, insulation and decoration - everything is made to high standards.

The house is on two floors with a roof terrace.

On the ground floor there is an open space with a living room, sitting area, fireplace, dining room and kitchen.

On the first floor there is a bedroom, bathroom and balcony.

On the second floor there is an open terrace with a view of the monastery and church. The house is located in the very center of Blato, in a very attractive location, close to shops, cafes, restaurants and all the infrastructure of the town, but at the same time in a quiet side street, which provides peace and privacy. Everything is made in the traditional Dalmatian style, with stone as the main element, and all the furniture remains in the house.
