Τιμή:	USD 2,225,392.72

Τοποθεσία

Χώρα:	Bosnia and Herzegovina
Δημοσιεύθηκε:	30/04/2026
Περιγραφή:	

The MHE Vrazalize is a small hydropower plant built in 2022 with an installed capacity of 560 kW. The operating license was issued in May 2023, all official approvals have been in place since March 2024 and the permanent electricity connection has been secured. The grid connection costs have already been paid in full and the sale is being made as a share deal (100% of the company shares), as all rights, permits and the power purchase agreement (PPA) have been issued to the operating company.

key technical data: Installed capacity: 560 kW

Expected annual yield: 2,500 - 3,000 MWh

Term: 30 years + 15-year extension option

Year of construction: 2022

Purchase price & Yield

Offer price: €1,900,000 (share deal)

This price and the expected annual production result in a very high gross yield (attractive high return),

even after deducting operating costs and one-off repair expenses.
The price makes the property an interesting investment opportunity in the field of renewable energies.
