Περιγραφή:

A beautiful village stone house, built in 1832, set in 6500m² of mature park.

Over two floors, the property offers a total of 218m² of habitable surface area, with a main house of 147m² approximately and an independent gîte of 71m².

In good condition throughout, the main house offers a living room with wood burning stove, a dining room with open fireplace, a kitchen, three bedrooms, a bathroom with WC and a shower room with WC. The renovation of the gîte was completed earlier in 2025 so is in excellent condition. It offers a large open plan living/dining room/kitchen and a shower room on the ground floor and two bedrooms and a WC on the first floor.

Both dwellings have their own terraces for outdoor dining.

From a technical perspective, the house and apartment are heated by electric radiators and the entire property benefits from double glazing.

The property is south-east facing.
