Περιγραφή:	

It is being offered at below the Developer's current market price as the owner was an initial investor. Samples of furnished units are shown, as well as the actual unfurnished unit.

The development is of luxury sea-view condominiums set on the hillside of Karon, overlooking Karon Beach which is just 300 metres away. Situated on 17 Rai/7 Acres of lush tropical gardens, this is truly a breathtaking location.

Offering the highest quality international standards providing well-constructed residences each beautifully appointed.

This unit is a unique, modern, tropical design suited to any criteria and will include built-in wardrobe and built-in kitchen with hob, extractor hood and sink. It is unused to date and is being sold unfurnished, but a furniture package can be purchased from the Developer.

Bright and spacious accommodation with direct pool access from the balcony makes this a truly relaxing tropical retreat. The communal area provides a well-equipped gym, restaurant, large swimming pool and much more.

It is located in the centre on the ever-popular west coast and gives easy access to both Kata and Patong, both of which offer extensive shopping, bars restaurants and nightlife.
