Περιγραφή:	

We are pleased to present one of the most established private dental clinics in South Tenerife, with more than 15 years of successful operation, a prime corner location on the main avenue, and a fully active business structure. The transaction includes the premises, garage, and storage room, offering a turnkey opportunity ready to continue operating from day one. The clinic features modern and welcoming facilities, fully equipped with advanced technology and enhanced by the valuable advantage of having its own in-house laboratory. In addition, the business is supported by a multilingual team of around ten highly qualified professionals, committed to continuous training and constant updates in the latest dental techniques and innovations. Its track record speaks for itself. Over the past 15 years, the clinic has treated approximately 40,000 patients and placed more than 15,000 implants, working with Straumann implants, an internationally recognised brand known for quality and durability. During the last decade, the clinic has maintained an average of 1,513 patients per year and a stable schedule of approximately 10,000 appointments annually. Annual turnover has reached significant figures, maintaining steady growth and demonstrating a solid financial structure. The clinic has established itself as a leading reference in Tenerife, even during challenging market conditions, thanks to its strong reputation, patient loyalty, and medical excellence. An outstanding opportunity for medical groups, investors, or industry professionals seeking to acquire a fully operational business with an established brand, a loyal client base, and genuine expansion potential within the dental healthcare sector in the Canary Islands.
