This 9.2 rai plot (14,720 sqm) features stunning views of the Andaman Sea in an area known for its untouched tropical beauty, Tha Lane, Krabi. With a Chanote title and no other resorts in the area, ita€™s perfect for a resort, private residence or luxury development.

Government water and electricity is in place and ready to use. Therea€™s concrete road access and a macadamized road access. The location is 10 minutes from Ao Nang, Krabia€™s most popular destination, and 20 minutes to Krabi International Airport.

The plot is some 80 meters above sea level and has one of the most stunning and amazing panoramic ocean views anywhere in Thailand. Tha Lane does not have any existing major resorts--a very positive selling point. This area is for true nature lovers who want to experience a natural and stunning environment.

This magnificent plot is only a 5 minute drive from The Lane Bay- where, within a few minutes, one can reach some of the worlda€™s most beautiful secluded islands. The land plot has spectacular views, in some places close to 180 degrees in angle and ranging from 10-80m above sea level. A paved road with water and electricity runs close to the plots, presenting an excellent opportunity for a boutique resort development or an exclusive private residence.

Tha Lane Bay is dubbed as one of the most beautiful mangrove forests in Thailand. The bay was sheltered by columns of magnificent limestone canyons and the lagoons inside. Due to its pristine ecosystem and unspoiled conditions, it may soon as well become an official national park of Thailand.
