Περιγραφή:

Situated in Vilamoura on an expansive 2,825 m² plot with 960 m² of construction and 4 en-suite bedrooms, this villa offers the rarest of luxury privileges: absolute privacy.

Built with a reinforced concrete and steel structure, the property features advanced thermal and acoustic insulation hidden behind its luxury finishes. This acts as a sensory filter, keeping the interior in a state of absolute, uninterrupted serenity. Distributed over three spacious floors, the flow through the home is entirely seamless, interconnected by a private panoramic glass elevator that serves as the villa's elegant vertical axis.

The property boasts an exquisite rooftop terrace where minimalist glass balustrades rest on concealed supports, ensuring safety without ever interrupting the line of sight. It is built upon an invisible infrastructure of concealed drainage, architectural recessed lighting seamlessly integrated into the structure itself, and cutting-edge engineering.

Additionally, the villa features a professional chefs kitchen, underfloor heating throughout, concealed

ducted air conditioning, and natural ventilation. The entire home is powered by a high-efficiency heat pump combined with an integrated solar photovoltaic system and argon-filled double glazing. Advanced home automation (domotics), a comprehensive CCTV security system, a video intercom, and motorized entrance gates complete this exceptional property.
