About the Area

Alessandria della Rocca is a picturesque and historic hill town nestled in the province of Agrigento in Sicily, Italy. Situated at an elevation of over 500 meters, it is beautifully positioned near the Platani Hills and the broader Sicani Mountains, overlooking a fertile river valley. This tranquil area is deeply rooted in agriculture, characterized by sweeping landscapes painted with lush olive groves, almond orchards, and vibrant fruit trees. For travelers seeking an authentic and off-the-beaten-path Sicilian experience, the town serves as a perfect gateway to the rugged natural beauty and traditional farming culture of Agrigento's inland territory.

The town boasts a fascinating history that dates back to 1570 when it was founded by a local nobleman, Don Carlo Barresi. Originally known by different names, including 'Pietra d'Amico' after a nearby fortress, the commune officially became Alessandria della Rocca in 1862 by Royal Decree. The 'della Rocca' portion of the name pays homage to the town's revered patron, Our Lady of the Rock (Madonna della Rocca). According to local legend, the Virgin Mary appeared to a young peasant girl on a majestic cliff, revealing a hidden sixth-century statue and leading to the construction of the Sanctuary of the Madonna della Rocca, which still dominates the hillside today.

Wandering through the grid-like streets of Alessandria della Rocca feels like stepping back in time, with its architecture reflecting the rich cultural tapestry of Sicily. The town center is adorned with stunning Baroque and Renaissance landmarks, such as the Complesso dei Carmelitani, noted for its intricate stucco work, and the historic Church of Santa Maria del Pilerio. Beyond the immediate town center, the surrounding Platani Hills harbor ancient Sicanian archaeological sites, medieval ruins, and forgotten necropolises that whisper tales of the island's diverse ancient inhabitants. This rich heritage, combined with quiet cloisters and historic noble palaces, makes it a captivating destination for history enthusiasts.

Despite its remote and peaceful ambiance, getting to this charming corner of the Agrigento province is relatively straightforward for international and domestic travelers. The nearest major aviation hub to Alessandria della Rocca is Falcone-Borsellino Airport (PMO) in Palermo. Located roughly 75 kilometers to the north, the airport is connected to the town by a scenic drive that typically takes about two hours by rental car or regional bus. While other alternatives like Trapani (TPS) and Catania (CTA) are also accessible, Palermo remains the most convenient gateway for visitors looking to explore the historic and natural gems of the Platani valley.
