But maybe the prospect of , concept , plans , permissions and all it entails has stopped you . Well here we have a great opportunity with the majority of the back ground work like this completed and the costs of that paid .

Its taken three years to get to this stage for the current owner who now due to changes in circumstance has decided to sell this plot and project , all plans and permissions included and the full material specific project for demolition and construction lodged at the town hall .with a recent quote of €150,000 to get to the basic shell stage of an impressive and super attractive characterful home , leaving the new owners to choose , final distribution and finishes.

Here are the basics

A main plot of 184,60 meters with planning permission for construction of 235 square meters

A rear plot 100 square meters with separate access and deed that was planned to be used as garden or orchard , but there exists the possibility to obtain further planning to construct a garage or even a dwelling . so over all total of both plots is 284,40 square meters .

The new property will consist of 2 stories
