Ubicación

País:	Portugal
Estado/Región/Provincia:	Madeira
Ciudad:	Machico
Dirección:	Machico
Publicado:	23/06/2023

Descripción:

According to PDM, the following are allowed:

- Permitted typologies: Housing, Tourism, Commerce and Services
- Maximum construction area: 955.00 m²
- Maximum implantation area: 382.00 m² (40% of the land)
- Maximum waterproofing area: 477.50 m² (50% of the land)
- Maximum height: 3 floors (limited by the average height of the surroundings)

If the option is to build houses, you can use 955 m², since there are no parts in common, they can be single-family, semi-detached and townhouse, in this case, if they are single-family and of T3 topology, you can build 4 units, if they are semi-detached, you can build 6 in groups of 2 houses each, if the option is for townhouses, Always depending on the typology to be chosen, the maximum will be 7 villas in two groups of 4+3 villas each, not forgetting the creation of parking lots for visitors, always 1 parking lot for each villa.

All construction options are always conditioned to the distances and morphology of the terrain, since this report was executed without the support of a topographic survey, they cannot exceed the planned

construction index.

You can count on the professionalism of our team, at all stages of the process.
