Descripción:

Exclusive top floor apartment: 3 rooms with underfloor heating, air conditioning and air heat pump! We are pleased to offer you six exclusive top floor apartments for sale in the coveted Donaustraße 10-11 in Berlin. These apartments will be completed in September and are ready to move into immediately. A special highlight of this property is the installation of two elevators, one in the front building and one in the rear building. This means that all residents of the attic units have easy access to the elevators.

The apartments vary in size and offer different floor plans to meet different needs. There are two two-room apartments with approx. 59 m², two apartments with almost 88 m² and two more with almost 110 m². Each apartment has its own balcony, providing additional outdoor space.

Another attractive feature of these apartments are the modern equipment features. Each unit is equipped with heat pumps and air conditioners in each room to ensure a comfortable indoor climate. The underfloor heating provides cozy warmth in the cold months. Due to a low energy value of approx. 40 kWh, the apartments are future-proof and energy-efficient.

The apartments are equipped with high-quality parquet floors. The bathrooms offer either a shower or a bath to suit individual needs. It should be noted that no kitchens are assembled, which gives buyers the freedom to design their kitchen according to their own preferences.

The location of Donaustraße 10-11 in Berlin offers an excellent infrastructure and good connections to public transport. Numerous shops, restaurants and leisure facilities are in the immediate vicinity.

This is a unique opportunity to purchase a modern and well-appointed top floor apartment in one of the most desirable areas of Berlin. Do not hesitate and make an appointment to discover these exclusive apartments personally.
