Stunning Farm With Land For Sale in Eastern Cape South Africa

Esales Property ID: es5553694

N6, Queenstown Road
Sterkstroom
5425
Eastern Cape
South Africa

With its glorious natural scenery, excellent climate, welcoming culture and excellent standards of living, South Africa is quickly gaining a reputation as one of the most desirable places across the world to live or visit. On offer here is a chance to make a smart financial investment in this magnificent part of the world.

The farms is about 34km's from the town of Queenstown and the road is the N6 which is a national

highway and only around 210 km's to East London where there is an international export harbour and airport.

The Eastern Cape Province is well known for the exceptional beautiful nature and wildlife. It is very popular for game farming. The crown prince of the UAE also has a game farm in the province. The area where the properties are situated, are valleys, mountains and streams. This property's main source of water is ample fountains which do not get weaker in the drier season.

The property is ideal to develop as a game farm as the habitat is ideal for it. There are quite a few different game species occurring naturally and about +/- 100 blesbuck which are very popular to hunt for venison. There is a mixture of grassland and African bush land, mainly Akasias, which draw Kudu's and a whole variety of different antelope. The farm is very water rich with strong fountains as the main source. The annual There are a few concrete reservoirs, 5 earthen dams and 2 streams are running through the farm. The surface of the properties is 1326,4926 ha and the biggest one (about 900ha) is already game fenced. There is also walking trails around the farms and we received several requests to incorporate our land into it, but we have not done it yet. The plateau on a mountain on the one farm has also been identified as ideal for wind power, which can generate a handsome income monthly, but that is for the buyer to decide. These properties have so many possibilities and it really is an oasis to escape into nature.

There is no formal house on the farm but a 'hunters dwelling' which sleeps about fourteen people. It has a kitchen, 2 bathrooms and a large living area. These farms with its beautiful mountains, valleys and overall beautiful scenery, is ideal to develop as a luxury hunting ranch. It is also a very good stock farm and is used for cattle and sheep at the moment. The properties are divided in camps with water points for stock. There are a store and a carport for 3 vehicles.

Land in our district very, very seldom comes in the open market as it mostly stays in families or the neighbour buys it at a reduced price to save on taxes and costs. Should a potential buyer look for more land, 2 of the neighbouring farms will be interested in selling as the farmers are very old (90+) and have no heirs.

Thus, this is a very rare opportunity which very seldom arises. We are serious about selling and have not marketed the farms as yet.

There is a bond on the property and an existing contract for the rent, but that we can just give the tenant notice if and when we have a buyer.
