Descripción:

Ancient estate of approximately 290 hectares with a private airport and tourist development plan, including a golf course for sale on the coast in Tuscany. Close to the prestigious region of Bolgheri, where important wineries boast the production of some of the most awarded wines in the world, such as Sassicaia and Ornellaia, this estate extends 15 km as the crow flies from the sea and a short distance from historic villages immersed in an area made up of vineyards, olive groves, and uncontaminated woods. The same family has owned it for generations and is now ready to be transformed into a luxury resort. It consists of a 17th-century country village and farmhouses, all located in private and reserved positions, partly renovated and partly to be recovered. The municipal administration has already included in the master plan the development of a luxury resort with a 36-hole golf course and a building area of over 21,000 square meters for a total capacity of over 150 rooms for accommodation use. The estate benefits from two rivers that run through its private lands and provide water for domestic and irrigation purposes as well as presence of thermal waters within a short distance. The 4 hectares of DOC Val di Cornia vineyard can be expanded and consent to building a winery. This potential makes this property one of the most attractive available on the Tuscan real estate market. Further concessions are planned for constructing a bathing establishment on the beach near Baratti. This investment opportunity in one of Tuscany's most popular areas is not to be missed!
