### ISLAND OF RAB, LOPAR - Building land for a family house

We offer a building land in the center of Lopar on the island of Rab! Building land located a few minutes walk from the sea, and nearby are all the amenities necessary for life. The plot has 691 m2, its configuration is completely flat, which represents a rare opportunity for building without major preparatory work. Access to the plot is from an asphalt road, and all connections are in the immediate vicinity. Ideal for building a family house with a swimming pool. The ownership is neat, without encumbrances. There are few building lands of such specifications in the Lopar area, so do not miss the opportunity to build a property in a place with one of the most beautiful sandy beaches in this area.
