### Descripción:

This property consists of two adjoining plots of land. Rich in native trees, it features a truly traditional orchard with 40 carob trees, 12 almond trees, and several fig trees that beautifully dot the landscape.

The fertile soil offers excellent conditions for agricultural use and for creating a sustainable, productive environment in harmony with nature. The tarmac access road ensures easy entry for any type of rural activity.

Although construction is not permitted, this land is ideal for those looking to invest in the soil, cultivate responsibly, or simply enjoy the tranquillity and ecological value of a preserved natural setting. - REF: 1009-2392
