Descripción:

Serenity built by Fercopor is a new and exclusive residential development to be built in the end of 2026 in the prestigious area of Sector 5 Vilamoura, one of the Algarves most prestigious areas, surrounded by greenery and overlooking the sea and the protected nature reserve.

Designed by renowned architect Miguel Saraiva, the project reflects a minimalist and elegant architectural language, defined by clean lines, simplicity and large glazed openings that enhance natural light and create a seamless connection between indoor and outdoor spaces. The spacious terraces are conceived as true extensions of the living areas, opening onto lush green surroundings and reinforcing a sense of tranquility and harmony with nature.

The development offers a carefully planned communal green area, complemented by two outdoor swimming pools, providing a relaxed and exclusive lifestyle. Residents will also benefit from a full range of premium amenities, including a heated indoor pool, fully equipped gym, massage room and a social lounge, all designed to promote well-being and comfort throughout the year.

Serenity features underground parking, private storage rooms, electric vehicle charging points, a

reception concierge service and a modern security and surveillance system, ensuring convenience, privacy and peace of mind. The apartments stand out for their generously sized bedrooms, high-end finishes and meticulous attention to detail.

Ideally located, Serenity is within close proximity to Vilamoura Tennis & Padel Academy, medical clinics, the Vilamoura Marina, beaches, renowned golf courses, the equestrian centre, international schools and the Environmental Park, offering an exceptional lifestyle where nature, leisure and urban convenience coexist in perfect balance.

Serenity embodies a sophisticated way of living, where contemporary design, comfort and an outstanding natural setting come together in one of Vilamouras most privileged areas. - REF: PPH4413
