Descripción:

Welcome to your new home on Sukhumvit Soi 16

This 1-bedroom, 2-bath unit on the 9th floor offers a smart, open-plan layout that's perfect if you appreciate minimalist style without feeling cold. You've got about 76 sqm, so it's spacious enough to live comfortably but still manageable to keep clean.

Living area and kitchen

You'll probably spend most of your time here—there's a white sectional sofa with patterned cushions that make it feel cozy, plus a wall-mounted flat-screen TV right opposite. Light wood floors run throughout, adding warmth and making the space feel bright. The kitchen is minimal but practical: white cabinets, black countertops, and built-in appliances including a dishwasher and an oven. Under-cabinet lighting keeps things well-lit when you cook, and the compact layout maximizes the space nicely. There's even a mini home bar setup if you like to entertain.

Other features

Two bathrooms with modern vanities and backlit mirrors

Floor-to-ceiling sheer and blackout curtains in living and bedroom for privacy or darkening

Sliding glass door opens to a balcony where you can enjoy some fresh air

Built-in washing machine and a black fridge tucked neatly in the kitchen area

Decorative shelving and ceiling lighting give the space a polished, contemporary feel

It's a freehold resale, so you're not just renting here. Being in Khlong Toei means easy access to central Bangkok yet tucked away enough for comfort. If you want a place that looks modern but feels like a real home, this one's worth a look.
