It gained its first municipal independence in 1874, but it kept it for a very short time, only two years. It is divided into two parts, St. Lucia and St. Barbara, according to the names of the two churches that exist in its area. Kostrena is

located in the immediate vicinity of the city of Rijeka, framed by the Martinšćica Bay and the Bakar Bay. Our Kostrena peninsula is about 10 kilometers long and gently slopes towards the sea coast. Along its entire length there are beautiful beaches that are visited by thousands of swimmers during the summer. The most famous and most visited are those in the Žurkovo Bay, then Smokvinovo, Svežanj, Spužvina, Podražica, Nova voda and Perilo. Kostrena consists of about twenty settlements, many of which were named after families, and today the most populated are Vrh Martinšćica, Glavani, Sv. Lucija, Rožmanići and Paveki. The characteristic karst area with Mediterranean plants and the famous Kostrena gromača, and the mild climate that sometimes gives way to strong gusts of the bora, are the characteristics of our region. In Kostrena, a place of sailors and fishermen, there are a number of newly built villas, houses, smaller buildings with luxury apartments with exceptional views of the sea, but also the forest in the background. The place, which is organized according to the size of a large city on a smaller geographical area, makes Kostrena an ideal place to live. The proximity of all amenities, forests and mountains, but especially the sea, promenades and natural beaches, sets Kostrena apart from the rest of the coastal belt.
