ŠIBENIK, VODICE – 3 SJ + possibility of 6, plot 920 m²

From the DUX offer, we highlight a rare opportunity on the Vodice market – a property that combines a spacious plot, a functional layout and a strong investment potential.

On a plot of approximately 920 m², there is a house with several already formed residential units, with a conceptual design and the process of obtaining a building permit for the extension of an additional floor with 3 more apartments.

Already in its current state, the property allows for the organization of several separate units with separate entrances, which provides exceptional flexibility – whether for tourist or long-term rental, or for a combination of own residence and additional income.

By extending the additional floor, the possibility of forming a total of 6 residential units opens up, which gives this property a clear and strong investment direction. In the context of increasingly fewer available larger plots in newer parts of Vodice, this opportunity is becoming increasingly rare on the market.

The spacious garden offers numerous possibilities - from arranging a Mediterranean garden and a relaxation area to additional facilities such as a swimming pool or tourist facilities.

LOCATION

The property is located in a newer, quieter part of Vodice with mostly newer construction and less tourist crowds, which makes it ideal for everyday life and long-term stays.

The proximity to the center, shops, schools and main roads allows for easy everyday organization of life, while good transport connections further increase the functionality of the property - especially in the context of tourist rental and frequent arrival of guests.
