Situated in one of the most exciting and rapidly developing golf resorts in Southeast Spain, this 62 m2 second-floor apartment offers a rare blend of modern sophistication and high-yield investment potential. Located in an exclusive block of just 32 units, the property has undergone a comprehensive high-end renovation, transforming it into a contemporary sanctuary perfect for the discerning golfer, the football enthusiast, or the savvy overseas investor.

A Masterpiece of Renovation and Design

### Unparalleled Resort Amenities

As a resident of Condado de Alhama, you enjoy the peace of mind provided by a gated community with 24-hour onsite security. The resort is centered around a world-class Jack Nicklaus Signature golf course, but its lifestyle offerings go far beyond the fairways. Within the Al Kasar town center, you have access to:

- \* A vibrant selection of bars and restaurants, including two fine-dining establishments.
- \* Essential services including a large supermarket, laundrette, and hardware store.
- \* Lifestyle shops including a furniture store and a dedicated golf clubhouse.

The resort's prestige is set to soar even higher with a new 5-star hotel currently under construction, adding a new tier of luxury to the immediate vicinity.

### The 2030 World Cup Venture: An Investor's Dream

What sets this property apart is its position in a corridor of massive institutional investment. A major developer, Alhama Nature, is currently transforming the resort into an international sports hub. Two professional-grade football pitches are nearing completion, with six more to follow, anchored by a 3,500-seater stadium.

These facilities are specifically designed to attract international professional teams for warm-weather training camps and are being prepared as a key training base for the 2030 FIFA World Cup. For investors, this ensures a robust, year-round rental market that extends far beyond the traditional holiday season, driven by athletes, coaching staff, and sports fans from across the globe.

### Connectivity and Coastline
