Descripción:

Available for purchase, this warehouse is located on a 5,100 m² plot, with a building footprint of 2,021 m² and a total construction area of 3,114.50 m².

The property is distributed across several levels:

Basement: equipped with a freight elevator connecting to the upper floor, it has a ceiling height of 3.95 meters and direct access via a gate.

Ground floor: composed of various rooms and sanitary facilities, with a ceiling height of 5.55 meters to the beam, allowing for functional and versatile use. It also has gate access.

1st floor: includes several offices with sanitary facilities, in an approximate area of 300 m².

Among its additional features are:

- Gate with access for TIR vehicles
- Transformer substation
- Yard and circulation area around the entire building
- Parking space
- Installation of 434 solar panels

Roof completely renovated in 2010

Located in a consolidated and recognized industrial area, it benefits from quick and efficient access to the main highways.
