Ubicación

País:	Rumanía
Estado/Región/Provincia:	Bucuresti
Publicado:	04/06/2026
Descripción:	Located in Tunari.

Excellence Through Experience!

A new concept of modern industrial spaces is taking shape in a highly accessible location, just minutes away from major transport routes. The development consists of several individual units with generous surface areas, ideal for warehousing, logistics, or production activities.

Each unit is designed for maximum functionality, featuring a private restroom and a fully fitted office area, allowing you to start operations immediately.

Built using high-quality materials, including sandwich panels with a high fire-resistance rating, the construction ensures long-term durability, safety, and reliability.

One of the key advantages is flexibility: the spaces can be customized and partitioned according to your specific requirements, perfectly adapting to the needs of your business. The units offer a 6-meter clear height and a 10-meter-wide access road.

The property provides easy access for all types of vehicles, from passenger cars to heavy-duty transport, complemented by spacious and well-organized parking facilities.

The design combines industrial architecture with elegant accents, creating a modern and professional environment for companies seeking more than just a workspace.

The units are high-ceilinged, column-free, with separate access, and designed for maximum operational efficiency — all within a setting that inspires growth, stability, and long-term success.
