ISTRIA, ŠTINJAN – Sale of construction land

For sale is a beautiful building plot with a total area of 1,500 m², of which 1,274 m² are for the construction of residential or family houses, the rest are access roads. Located in a quiet and green part of Štinjan, only 1 km from the coast as the crow flies. The plot has a regular shape, with an additional private part of the access road — an ideal basis for the realization of a family home, a luxury villa or an investment project for tourist rental.

The land is located in a zone with complete infrastructure in the immediate vicinity, which significantly facilitates and speeds up the construction process.

The land is located within the scope of the most important urban plans:

PUP Štinjan – Urban development plan of Štinjan

GUP Pula - General urban plan of the City of Pula
