Descripción:
Refurbished apartment with river view in Graça

In the heart of Graça, in one of the most characteristic areas of Lisbon, you will find this completely refurbished apartment, located on the top floor of a building without an elevator and with a pleasant direct view of the river.

Originally a T2, the property was converted into a T1 with a large and bright living room, providing a more generous and comfortable social area. The original configuration can, however, be easily recovered, allowing the space to be adapted to the needs of those looking for a second bedroom, office or guest area.

The apartment consists of a large living room, kitchen with sunroom, a suite, two full bathrooms both with shower and a practical pantry.

The refurbishment was carried out with special attention to comfort and functionality, including the renovation of the plumbing and electrical installation, as well as the installation of PVC frames with double glazing and an oscillo-stop system. It also has a high-security door.

Another differentiating element is the possibility of using the attic, with the potential to create a closet, storage area, office or even an additional space, upon verification of the applicable conditions and authorizations.

The building has recently undergone roof and façade repair, an asset for those looking for a renovated property in a well-kept building.

An opportunity to live in an apartment full of light and personality, with the Tagus as a backdrop, in an emblematic location in Lisbon.

Main features:
