## Pellet factory with a capacity of 2 tons per hour

IBG Real Estates offers for sale a factory for ECO pellets near the city of Burgas. The factory is for sale fully equipped and ready to work tomorrow with all the necessary documents, detailed instruction from a competent person and a fully functional and complete production line. The property includes a large hall located on a plot of land with a size of 3000 sq.m. and all necessary vehicles for logistics. The property is located so that there is direct access from an asphalt road. The factory is equipped with an electric motor with a capacity of 110 kilowatts, which allows the production of up to 2 tons of ECO pellets per hour, and this amount can be easily doubled when installing second motor. With so steeply rising prices for fuel, electricity and gas, this is an ideal investment in this thriving new business. For viewings and more information, call us at the listed phones or send us an email.
