توضیحات:

In the center of the picturesque Old City of Bubbio, halfway between the famous Piedmont territories Langa and Monferrato, there is a delightful old castle. This castle was rebuilt in the 19th century in an uncertain style on ancient foundations remaining from the estate of the 13th century, excised by the Spaniards in 1639. As a result of this story, only the ancient tower remained. Today, the castle is a magnificent house with magnificent fresco halls, foster and large park of 4 hectares, which is located on a rocky cliff over the river and offers an exciting look. The building is perfectly restored and has a total inner area of 4700 square meters. Part of the building is used as a hotel and includes twelve exquisite bedrooms, a restaurant, a chapel, as well as eight beautiful living rooms, a reception room and a breakfast hall. During the reconstruction, special attention was paid to maintaining historical authenticity and creating coziness and exquisite style in each room to ensure an unforgettable impressions in the atmosphere of the old manor. The magnificent garden around the castle guarantees the silence of nature and adds a charm of each of the twenty -one hotel rooms. Twelve rooms in the hotel part are perfectly thought out, equipped with all amenities, bright and spacious with their own bathrooms and balconies that -open the views of the hills.
