Description:

Are you looking for a project to transform a diamond in the rough? We have a gem of a property in Boliquieme, just waiting to be transformed to its former glory.

With a new design prepared by an Architect and approved plans by the Town Hall, this project is ready to go. Transforming an old village townhouse into two storeys with a new roof terrace added for sea views. It retains exposed natural stone walls and attractive cathedral style arch ceilings. The new plans feature an open plan concept on the ground floor with a kitchen, diner and lounge with two door sized windows leaving the traditional stone surround. On the first floor is a hallway leading to two guest bedrooms and a style rustic bathroom. On the top floor a good size roof terrace overlooking the village and distant Atlantic Ocean Coast.
