Trendy and minimalist are adjectives that perfectly describe The LOFT. This project is perfectly adapted to contemporary living, designed to provide a natural and peaceful lifestyle while still maintaining an urban edge, as it is situated in one of the most dynamic areas of Vila Real de Santo António. The LOFT represents a fantastic option for living or investing.

The LOFT is an open space with plenty of natural light, thanks to the huge windows that frame the entire property, especially in the living room and kitchen area that opens to the outdoor patio and the swimming pool.

This project is both different and innovative, both aesthetically and functionally, designed to create discreet spaces and leisure areas, strategically placed to give a sense of greater space and freedom while maintaining a balance between refinement, elegance, and sophistication.

With city commerce within walking distance, as well as the Guadiana River and its marina, living in this building allows for a calm and healthy life. You can enjoy outdoor sports, walk, run, bike, sail, or simply take advantage of the proximity to the river and open spaces.

The combination of architectural structure rehabilitation and new construction results in a unique building that promises to stand out for its originality and quality. Reviving historic buildings by creating history is a way to breathe new life into cities.
