Description:

p>Tulum is a city on the Caribbean coast of Mexico, on the Yucatan Peninsula. It is known for its well-preserved ruins of an ancient Mayan port. A place to disconnect from city life, doing activities such as a yoga session on the beach or in a secluded spot in the middle of the jungle or near a cenote, to reconnect with nature and feel the energy around you. Distinguished. Private. Exceptional. These are the cornerstones of this project, carefully designed to cultivate an unparalleled living experience that presents the opportunity to dwell in an environment where exclusivity meets serenity, and where the charm of Tulum's natural beauty is your daily backdrop. Here, every detail matters. From the thoughtful layout of our community, which guarantees each resident their own piece of paradise, to the meticulous design of each villa, our master plan embraces luxury and sophistication throughout. It is a minimalist, understated and elegant luxury villa. Designed in an exclusive development in the heart of Tulum. The objective of this house is to create an interaction with nature, generating a connection between the user and its immediate natural environment, respecting the construction guidelines. The villa seems to be just a series of abandoned walls and columns in the dense jungle of Tulum with all its surrounding gardens hanging everywhere and also the pool that serves as a great mirror of the entire rear facade, makes the villa merge and coexist in a magical and mystical way with the environment, which is environmentally friendly.
