#### ABOUT THE AREA

Sisal is a seaport town in Hunucmá Municipality in the state of Yucatán, Mexico. It was the principal port of Yucatán during the henequen boom, later overshadowed when the more modern port of Progreso was built to the east. It lent its name to the agave-derived sisal fiber which was shipped through this port.

Sisal is a quaint small coastal town that is located in Mexico's Yucatan Peninsula. When my partner and I lived in Merida, since Sisal was only 45 minutes away, we frequently traveled to this beachside destination whenever we wanted a quick getaway from the bustle of the city.

The Yucatan Peninsula in general has amazing natural landscapes and the beaches in Sisal are no exception. If you walk along the beach, all you will see is white sand and clear waters ideal for swimming and sunbathing.

However, Sisal is not just about the beaches, though; there are also many colonial structures, churches, and natural resources that make visiting this seaside town worthwhile.

Sisal has some of the most beautiful beaches in Mexico, with soft white sand and crystal-clear water that's perfect for swimming and sunbathing. Whether you want to lay out and catch some rays, take a dip in the ocean, or simply walk along the shoreline, the beaches of Sisal are sure to provide you with the ultimate relaxation experience.
