ABOUT THE AREA

Anguilla, a British Overseas Territory in the Eastern Caribbean, comprises a small main island and several offshore islets. Its beaches range from long sandy stretches like Rendezvous Bay, overlooking neighboring Saint Martin island, to secluded coves reached by boat, such as at Little Bay. Protected areas include Big Spring Cave, known for its prehistoric petroglyphs, and East End Pond, a wildlife conservation site.

Peak season in Anguilla is December through to April, a time when airfares and hotel rates are highest and crowds are their largest. Unless you need to escape during this period there's no reason to follow the herd.

There are few temperature variations throughout the year in Anguilla and even the rainy season doesn't bring too much rain. For the lowest rates, visit in September and October when there are fewer hotels open as it is peak hurricane season. If you are looking for the sweet spot with the best weather, the lowest rates and the fewest crowds, plan to visit from late April to July.

Temperatures typically hover in the upper 20s celsius throughout the year. Rainfall is minimal, with the rainy season from mid-May to mid-November. During the rainy season the showers are brief, leaving just as quickly as they arrived. While hurricane season is from June to late November, the peak time for tropical storms is September and October.

There are no direct flights to Anguilla so you will need to fly via. Antigua or St. Maarten. Flying via. Antigua: direct flights are available to Antigua with Virgin Atlantic and British Airways. From Antigua there are onward connections with multiple airlines to Anguilla.

Flying via. St. Maarten: fly from London to Paris with Air France and then direct to St. Maarten. Air Caraïbes also fly weekly to St. Maarten during peak season. From St. Maarten you will need to take a boat which departs from the pier just a few minutes away from the airport. There are scheduled trips as late as 11:30pm but you will need to book in advance.
